1. Chapter 1

Hello my loyal readers as I have promised you I have started changing this story for the better, and giving it all I got. So ladies and gents I hope you all enjoy MY NEW LIFE (THE BETTER VERSION)

Chapter one: My side

"Choose you're side"

Astrid's voice rang in my head as I ran, not from anything but toward something. Toward something I ran from everyday of my life, toward my real self. My real that side stood with toothless, the only soul to ever show me loyalty. I ran with all my might, although Astrid was stopped by my closing of the Gate after me.

I reached my house, the place I should of called home. It was empty, it always was. I reached my sanctuary, my room. I grabbed the biggest basket there was and filled it with all my tools, some material(leather,steel,iron...),and finally my note books all six of them. They had all my ideas, all my sketches, all my thoughts. And two empty ones and some charcoal.

I put my clothes in a sack along with some rapped up fish, bread, meat...

...

I was there and the first thing I told my loyal friend was

"Were getting out of here" his respond was confusion

" Buddy they won't understand they never will. So I packed everything we need and we're leaving before they find out and besides I left them a note".

And so toothless let me up and he gave a growl as if to say "I'm with you"

we flew into the setting sun, as I pondered of what I wrote In that note.

Dear dad and everyone else

I Hiccup Horrendous haddock the third (or the nightmare as some of you called me) this is not my place. I don,t want to live on island that hates me. So I saved you all the pleasure of killing me and left without bothering you.

That means you don't have to worry I won't be chief

I picked my side and it was not with you that is all you need to concern your self with I won't return, I don't want to.

So yeah bye hope you don't see me again.

And dad sorry but I could never be what you wanted me to be.

And finally to gobber well you were right I'm better off not killing dragons.

Bye again

SO THIS CHAPTER was always going to be short but tell me if it is better then before. So REVIEW and make my day

2. Chapter 2

CHAPTER 2:

Hiccups (POV):

I never thought I would leave home. I always thought that I would work as hard as I can and kill a dragon, then they would all treat me better. I thought that after that I would be happier there, but I was wrong I could never be happy there. Now that I am best friends with a NIGHT FURY I think I can't be survive there. This was always coming ever since we spared each other.

I stared at the sea as we flew over it and saw the reflection of the beautiful sky. I felt free; I could never let this go just to fit in a group of barbaric idiots.

"Hey bud lets set down there, on the island up north"

Toothless let out a small growl of approval and we set down.

We ate some fish and set a make ship camp and right before we went to sleep I told toothless

"You know bud; this might just turn out ok"

Toothless once again grumbled his approval.

Narrator's (pov):

The sun shone on the dark scaled beast and his rider as they flew over the roaring sea through a raging storm.

"Try to find an island, bud we have to get out of this damn storm before it gets any worse"

"â€| "

"Bud"

"â€| "

Hiccup moved to look at Toothless and saw that his eyes were narrowed in a way he had never seen before, and suddenly in the middle of the storm Hiccup saw them. A flock of dragons of all kinds some he had only seen in books. They were all moving somewhere and suddenly Toothless joined them.

After hours of flying and trying to Take Toothless out of his daze, they reached a huge mountain which they entered.

And that's when Hiccup saw it happen

A Dragon was throwing its food down a huge hole and the food was only a fish. A huge monster's face jumped up and devoured the dragon. It then smelled around and looked at Hiccup.
